lights and stage presentation:

Entropia requires at least 30 minutes of soundcheck at the arranged hour, to be discussed earlier.

The gig lasts 45-55 minutes, depending on the time schedule.

We prefer stable blue or red light + stroboscope, all auxiliary lights in the room should be turned off.

Entropia frequently uses high-efficiency fog machine (brought in or provided by the club) throughout the show creating lasting smokescreen. This is not negotiable unless fire regulations/club conditions are against such action. If so, it must be discussed earlier.

nightstay and catering:

We require a clean, tidy space for rest for **6-7 PEOPLE** including hot shower and toilet.

Hostels/hotels are preferred. Wi-fi is not mandatory but will be welcome.

Number of crew is discussed before making any arrangements. There's always **1 ROAD CREW + 1 DRIVER.**

As for the catering needs, we need a full meal for **6-7 PEOPLE**. No vegetarians in the band. The meal should be served before the show, after soundchecks. All kind of snacks, fruits, candies (especially local favourites) will be welcome!

Our drink needs per show:

20 x 0,5 litres of beer (canned or bottled)

1 litre of 40% beverage

5 litres of water

Coffee and tea available on backstage.
