BACKLINE (provided by the venue)

- Bass Amp
- Guitar Amp
- Microphone Stand

Also, we require a small stand for the computer (40cm in width minimum)

NOTES

- Computer outputs, Lead Synth and Vocal are processed through my audio interface with balanced audio outputs (with TRS jacks);
- Electronic Drums are one stereo channel with all elements of the drum set - kick, snare, toms, cymbals and effects;
- Computer L+R contains mostly backing tracks - some synths and percussions;
- Vocal track is processed through the computer with compression, EQ and other FX, so no further processing is required.

MONITORING

Monitor wedges are required for all members of the band:

- One for the drummer
- One for the bassist
- One for the guitarist
- One for soloist, singer
