3 months after [the initial presentation of their new single “Dizzy”](#), Belgian shoegaze / dream alt rock band SLOW CRUSS is back with a full stream of their debut EP called Ease. The record has just been premiered through Flood Records, White Russian Records and Dingleberry Records and can be grabbed via [this location](#). Loaded with deep atmospheric hooks, spacy performances, and textured, misty tunes, the record takes you for a short, hypnotic journey that’s definitely got its own thing going on.
