

The Shy Birds, specializing in original and authentic Brazilian and Jazz music, is a Berlin based musical collaboration lead by Daniel Ondaro (guitar, voice and songwriting) and featuring an international cast of European, South and North American musicians. Ranging anywhere from a duo to a full six piece band, the group is known for entertaining audiences in a variety of venues both big and small with unpredictable and unique shows every time.

The band was born in Berlin, the cultural epicenter of European creativity, at the beginning of 2013. Since then, Daniel Ondaro (guitar, voice and songwriting), Petros Tzekos (percussion) and Johannes Heger (upright bass) have brought their music to many cities throughout Germany and to Prague, sometimes with other artists accompanying them, as in the case of their newest member, Konstantine Margaritis (electric guitar).

From samba to bossa nova, swing and jazz, country and folk, the Shy Birds explore different many genres of original and cover music. Linked by the common thread of their love for the classics of brazilian music and jazz, they play an acoustic set, ranging from dark and atmospherical music to lighter more carefree rhythms.
