8 tall Mic stands + wiring

Mic's/DI's see channel list

7 quality monitor wedges, minimum 12/2", 250W RMS + amp's & wiring

Electrical wires + multi-plug connectors

Hello!

We are always very happy when we arrive at a venue where stage and PA are already set and lines are checked.

Please schedule at least 90 minutes for our own instrument setup and soundcheck.

Sometimes we have our own technician with us, and sometimes - we don't.

Essential for the The Green Apple Sea's sound is a warm, well-balanced mix.

All backing vocals are particularly important. Beside the instrumental happenings, the choral arrangements should be of equal value. Therefore it is very important that the Band is provided with separate monitoring per person. We might be able to help the venue out if there's a problem with the amount of monitor lines required.

For technical details feel free to contact

Wuschi: (+49)179-5193914 wuschinet@gmx.de
or Flo: (+49)176-82087364 flo.kenner@googlemail.com

Thank you.
