

# Lar3n Technical Rider

The requirements listed below are the minimum requirement for Lar3n to be able to perform his set.

## DJ Requirements

We will require the following equipment:

### DJ Mixer:

The preferred DJ mixer is an Allen & Heath Xone: 92, however, a Pioneer DJM 750 MK2 or better will be sufficient. The most important is to have a Send/Return channel.

### CDJ's:

3 x Pioneer CJD-2000 Nexus with a functional USB Port and Ethernet LINK connected.

### Monitors:

1 x Mackie SRM350 or similar monitor (left side preferred) and the volume must be adjustable through the mixer.

### Power:

2 x 220 Volts power sockets.

### Table Space:

An area of approximately 30cm x 30cm is required so the artist can put his Korg KP3+ and the Tascam DR-40. The area must be accessible throughout the duration of the performance.

## Additional Rider and stage setup

- All equipment must be in high quality and in full working condition without any defects and with presence of full connection which allows usage of all Functions
- Stage area shall be stable and structurally safe. Artist reserves the right, without liability, of refusal to use any equipment which they feel is unfit, unsafe or does not meet the agreed specifications for the engagement.
