

# D E A F E A R P L U G S

## CATERING RIDER

The band consists out of 4 musicians and is always happy if there is some food available to be able to deliver a performance full of energy. If not it is no problem, the band will manage to perform nevertheless.

Somehow the singer chose to be vegetarian, so if there is some food without meat it would be really appreciated by him.

The same counts for beverages but here it comes to a more important point. The whole band would appreciate to have at least something (Water, Beer...) on stage during the show. Dehydration is not fun and it is always hot on stage, especially with our musicians.

Except of that everything is fine and will be well appreciated by the band.

There are no allergies or intolerances. just enjoy the show.
