DOPE CALYPSO RIDER

Dear Organiser!

Thank you very much for having Dope Calypso at your event.

We collected important information in this document in order to run a smooth show.

Don't worry if you can't exactly meet what is included in this rider, we once played a show at a venue where originally were no PA, so we are an easy to work with band.

The only thing is that please **make sure that we have all the info necessary!**

We also highlighted some of the things in this document with yellow. These are things which are required to double-check with the band before the show.

Please don't hesitate to contact us in if you have any questions!

Thank you again and see you soon!
