

Rider – NOISERV – 2018 – less gear

AUDIO

- Noiserv carry with him his own sound mixer - a Behringer Xair 18, that will stand on the back of him on stage (please see stage plot).
- This mixer will be operated by his own sound enginner that will stay with a computer on the main/front reggie. For that Noiserv will bring a 5Ghz TP-link router to create a dedicated wifi network and also need from you a dedicated ethernet cable from stage till main/front reggie to connect directly the computer with the Behringer Xair 18.

SENDS

nr	instrument	Conection type	Notes:
1	Main L	XLR	Connected near the musician
2	Main R	XLR	“”
3	Stage Monitor	XLR	Ideally an amplified monitor to a direct conection with Behringer Xair18

Contact: (00351) 936461737 / noiserv@gmail.com (David Santos)

EXTRA Backline

- drum stool
- 1 normal mic stand
- 1 mic stand with a round base and a long arm for the mic
- 2 small/medium mic stand with two clamps for shure sm57
- 2 sm57 microphones
- 20 XLR cables between 3/5 meters
- 1 ethernet cable from stage to main/ront reggie
- 1 X keyboard stand
- a table with aprox. 70cmX40cm with aprox. 80cm height

NOTE FOR FESTIVALS

- Noiserv set is a bit complicated so, ideally, it will take around 45 minutes to set up and around 40 minutes for the soundcheck. If this is not possible you should contact David Santos (936461737) or by e-mail noiserv@gmail.com.
- Once done the soundcheck, you can not disassemble the set, so if there will be other bands playing before Noiserv is necessary that the musician has at its disposal a platform with wheels, minimum size 3X2 (feet).

LIGHTS

- Noiserv does not have a light engineer, so the lights of his gig should be operated and managed by the local team.

VIDEO

- Noiserv uses a live video projection on the stage cyclorama/screen (see picture attached). The artist's camera should stand on the light bar above him. The musician has a camera with hdmi output which goes directly to the video projector owned by the venue. It's needed a cable to go from the camera till the video projector. The musician also has a VGA/hdmi adapter if needed.
