

Gautam

From the age of 13, the only prediction Gautam could make about himself or his career was that he would ultimately be a part of the illustrious music industry. After starting out his career with a short stint as a resident DJ in a reputed club in India he decided to go colossal with his career.

An audiophile by education, with an excellent ear for music, this sound engineer started his spin sessions in Dubai with some of the best concept events such as "Fraktal Fridays, Glitch, Ill Communications and Warped in Dubai.

He then moved back to India to start Flip Mag, an organization that has conceptualized and crafted numerous events, which have featured various national and international artists, and pushed atypical genres in and around the city.

India has seen no less of Gautam, with his regular gigs at festivals, nightclubs and hotspots around the country. He is the only artist in the city to have been featured by the Red Bull Music Academy

He has shared the spotlight with underground king pins such as Marco Bailey, Bart Skils, Ramiro Lopez, Whyt Noyz, Italoboyz, Ahmet Sendil, Arjun Vagale, Kohra, Praveen Achary, XXXY, Henry Saiz and many others.
