

Technical Rider - Hawk And The Wild

Band member: Jimmy Wiltfalk

General stage setting:

Singer/songwriter on a chair sings and play guitar while also accompany himself with harmonica, a stompbox and a tambourine. If possible it is always nice with a comfortable feel when looking on the stage with maybe a small table, a floor lamp, old carpet etc.

XLR/Microphones:

- Vocals (on adjustable mic-stand)
- Depending on venue size possibility of one extra mic for percussion instrument like tambourines directed in front of the left foot.

Tele/Instruments

- Acoustic guitar with piezo mic
- Homemade stompbox with two outputs. First from a piezo and second from a bass guitar mic. They both need to be EQ'd so only the lowest frequencies can be heard.

Chair:

To make the appearance less hunching the chair seat is preferably about 55-60 cm high.
