GÜLINA:

A young, eclectic band, taking turkish sounds from Berlin to all over the world.

A turkish german female singer & songwriter with arab roots who mixes turkish vocals with soul, pop, blues and funk music.

Raised between two cultures – different rules, different norms, different expectations – Gülina tries hard to find freedom and fights for an equal society as a woman. Her lyrics deal with this worlds politics, the borders we have to pass to be expected as humans, love and war.

The musicians of Gülina band are from different parts in the world – Argentina, Italy, Spain, Germany & Turkey – what influences their style of music and leads them to a must hear band for the whole audience.
