

A hungry rock'n'roll band from Jönköping, Sweden, that delivers a soulful, noisy and heavy groove. Blending rock, soul and blues in a powerful mix. With fuzz guitar riffs, intense vocals, pounding drums and a punchy bass, the music sounds like 70's classic rock but with a fresh taste.

The band was formed during the fall of 2016. Since the start, they have been touring all over Sweden and doing several radio appearances. Their debut EP, No. 1, was released in 2017 and can be found on all major music platforms. 2018 has been a busy year, a lot of concerts and their first tour in Germany. Adding to that, they have also been writing and recording new material for their first full length album. 2019 will be even more busy for these guys, with the release of the album and two booked tours in Europe.
