looN Cosmic Downtempo -2017 E.P.K.

looN - Cosmic Downtempo is the multi-faceted Ambient/Psychedelic musical form of expression of Jonny Galluccio;a very free and barefooted soul landed from outer space in 1983.

looN's music is a slow paced progression of soulful melodies juxtaposed with deep ambient textures and ethereal atmospheres either synthesised and acoustic derived, to help shift the listeners deeply in contact whit their inner soul.

-BIO [ENG]

All is due to party experiences,that's why you will not read another "he started making music at the age of 5". From 2000 on, as a heavy partygoer looN got so fascinated by the Chill Out side of events, because this kind of music has the heaviest load of mysticism and can shift your brain perception to experience a dreamy trancey state in a different way than average psytrance. While completing his studies as a Live Audio Engineer he heard a call from within,so he started crafting his very-own form of music,a deep tribal

experience, evocation of feelings that took a definite shape into "The looNfinite Loop EP" released in winter 2013 into Ektoplazm with Psyderweb Records (NL).

Early on in his career looN was influenced by a conspicuous amounts of different music and musicians spanning from concrete musique to 90s electronica to blues and many more.

In the summer of 2012 looN began exposing his art to the public, from open-air parties in Italy to european festivals including [Antaris Projekt](#) (D) and Tranceadventure 2012 The Beginning (SL).

In 2013 looN started throwing his own events, focused on Ambient/Downtempo style, and developing a new parallel line of sound, totally inspired by ambient music, Yoga and spirituality that follows him thru the years, and released his first pure space-ambient 3 track EP "Totally open Randomness" out in august 2013

[\[http://loon.bandcamp.com/album/totally-open-randomness\]](http://loon.bandcamp.com/album/totally-open-randomness) while he played in european and east european summer festivals such as Tangra [BG].

After many successful summer open-air parties in which looN's very live sound was featured as opening act, the contiguous collaboration between looN, the Euidamonia Psy crew and his fellows led to the opening of a stable, reliable Chill-Out area even in the one night events in Milan. In late 2013 looN started featuring mixes and djsets on the digital channels Electroshpere Radio, [Psyradio.com](#)-ua and [DI.FM](#) to form a series of mixes broadcasted from 2014 to present

In 2014 looN started collaborating with [Spirited Records](#)©/New Heart Music, label which promote the use of different tunings from A440 such as A444 into music, so in July 2014 looN released "Times Of Peace EP" with Spirited Records

[\[http://spiritedrecords.bandcamp.com/album/times-of-peace-2\]](http://spiritedrecords.bandcamp.com/album/times-of-peace-2)

as the new blueprint for looN's signature sound, mystic, loud, cheerful, uplifting, which also featured vocals from the spirituaist Teal Swan.

The summer 2014 brought looN to many open air events and festivals, such as BlackMoon[IT], Antaris [D] and Human Evolution[IT].

In 2015 looN released his first, full length Album with the russian label [Mystic Sound Records](#), "93:14 O'Clock"

In summer 2015 looN featured all the main psychedelic festivals in Italy such as [WAO Festival 2016 :: VISIONARY ECOTECHTURE GATHERING.](#), [BLACKMOON FESTIVAL - Ritorno alle origini](#), [HUMAN EVOLUTION FESTIVAL 2016 -- 5 Years Celebration -- GROW LIKE A PLANT](#) introducing his first totally ambient live set, and the new (live) psytrance side project [Opal Moon](https://soundcloud.com/opalmoonproject)(<https://soundcloud.com/opalmoonproject>) which was well appreciated by the crowds.

In late 2015/2016 looN started travelling to south east Asia, a particularly relevant experience which led him to Thailand as well, where he played for Acid Moon©, Ban Sabaii©, Shiva Moon and expanding his sound palette further more, with eastern influences and extensive field recordings captured in Malaysia's islands and towns. In 2016, the second edition of the charity release for rumanian orphans "Ancestral Lullabies Vol.1 / Vol.2" featured tracks from looN alongside Entheogenic, Ancient Core (which also compiled the VA)

Also in late 2015 a very particular track from looN was included in the VA

"Deprogrammed" by [Samana Records](#)© compiled by Sanathana.

2016 looN will feature opening acts, downtempo and brand new ambient live sets, in all the aforementioned festivals in Europe including some new events TBC.

A brand new, multiform EP merging the deepness of psybient music, with the evenness of rhythm and trance-inductive properties of dub-techno style is out on Beatport since July 2016 with Lux Nova / [Graygoo Records](https://www.graygoo.com/). <https://www.beatport.com/release/ru...>, a free download of the live version recorded in W.A.O. festival 2016 is available here
