BAND DESCRIPTION:

Fried Friend is a romanian electronic/rock band founded in 2011 and based in Bucharest. It has its roots in prog-rock / post-rock but heavily infused with electronica and drum and bass. Due to the different musical backgrounds of its members, Fried Friend bears the mark of acoustic instruments like drums, guitar and bass but embraces the "out of this world" element of the digital realm brought by synths, drum machines and samplers.
