

PURE UPLIFTING SYNTH-POP

Debut album – 'GAME ON'

By *SoftWave*

Release April 11, 2019 (vinyl/digital)

With support from DJBFA and Koda's Cultural Funds

'Game On' is a Danish musically uplifting synth-pop universe without ironic, attitude and stadionpumping shifts. The upcoming debut album from the hardworking duo is the beginning of something grand. A blend of pop music, synths, hardware, love, and gaming, which completes SoftWave. SoftWave invites everyone to join their game – the only thing you have to do is "PRESS PLAY".

The music is produced by SoftWave, programming and synths by Jerry Olsen and vocals and lyrics by Catrine Christensen. Together they create catchy choruses, which seek to move your soul, motivate the drive to live and maintain happiness transcending existential crises. The album title 'Game On' refers to the positive and fun of gaming from both the 80's and nowadays. This has had an effect on the music and lifequality of SoftWave. SoftWave describes the forthcoming release with the words: *"...It's like a drug pulling you away from the seriousness of everyday life, pure entertainment with the goal of putting a smile on your face. It's a throwback to the good stuff from the past that we bring into the future"*. SoftWave produces pure synth-pop from the heart, a Danish production with inspiration from the British synth-pop sound with English lyrics written by Catrine Christensen. Catrine describes her lyrics as *"Stories from her everyday life with a touch of happiness, personality and fighter spirit, which seeks to awaken the listener's curiosity and inner glow to never lose courage"*.

Ever since the success of SoftWave's debut-EP the productions in the home studio in Herlev have reached new heights, which manifest in the new album's danceable and catching songs with SoftWave's own touch – pure synth-pop – [Read more here](#)

RELEASE CONCERT: April 12, 2019 at Nordsø Records, Copenhagen. + support Aux Animaux (SE) and special guests

BIO

SoftWave was established in 2014. SoftWave released their debut-EP (Together Alone 2016, Together Alone The Remixes 2017) without any knowledge about the music industry and with huge ambitions of becoming a popular synth-pop duo in Denmark and abroad. SoftWave was recommended by Danish National Radio (Karrierekanon), reviewed by GAFFA (DK), playlisted by New Nordic Indie, interviewed by The Electricity Club (UK), received support from DMF (Danish Music Foundation) for their concerts at Synthwave Live 2 (London, 2018) and W-Festival (Belgium, 2018). Now SoftWave's music rotates permanently on several radiostations and playlists internationally (UK, IS, MX, DE, CN, SE, BE). With recommendations from ex-Human League and ex-Gary Numan members the future of SoftWave is promising.
