JADED JANE RELEASES THEIR NEW ALBUM "SALVATION"

November 17th, the Swedish group Jaded Jane will finally release their latest full length masterpiece. The new album, called "Salvation", is recorded and mixed by their third member, legendary Åke Linton, and will be available on Spotify and other platforms.

Music is our Salvation

The album "Salvation" is Jaded Jane's greatest musical expression to this date. Here they explore the soulful soundscapes of consciousness, reaching the peaks on "Ethereal" which is first single to be released Oct 1st, followed by the title track "Salvation" on Oct 22nd and onto "Another world" on Nov 12th.

The musical trinity of these singles culminate in what could be considered an original modern pop suite. In that, it is meant to be listened to as a meditative yet dynamic and powerful whole. The album "Salvation" is to be released on Nov 17th accompanied by a live performance the very same night at the prominent music club "Nefertiti" in Gothenburg, Sweden.

"Ethereal" is about the the pain of being ignored and unrecognized as an artist and as a human being. To lift yourself above your ego and become one with the ethereal beauty of true music and nature.

"Salvation" is about being reborn through fire, metaphorically speaking, to find a way out of the darkness by following the light of whoever or whatever it is you love.

"Another World" is a song of few words because we believe that music is beyond words. Perhaps it is the hope of another world where justice and equality reigns for all living beings, or to find another world within yourself where you are free. The choice is yours.

About Jaded Jane:

Jaded Jane consists of the two brothers **Axel Jane Olsson and Adam Jane Olsson**. They grew up in the Gothenburg suburb of Hammerhill, in Sweden. They have been playing and composing music since they were kids and the album "Salvation" is their fourth album.

Jaded Jane has an ambition to work for a better society through their music and artistic work. The group has coined expressions as "Fair trade music", "Ignorance Separates, Music Unites" and "Music is salvation".
