Backline

Band requires following backline provided by the promoter:

Drums:

22" or 24" kick

13" Rack Tom + Snare Stand

16" Floor Tom

- Preferred brands are Tama/Pearl/Mapex

1x monitor, standard 6 piece kit of microphones if needed

Band brings the rest of the drum kit.

Bass Guitar:

- Preferred amps are Ampeg/Fender/ Local Backline

If amp not available the bass is played via DI Box (we require a lowpass filter around 6kHz to filter out the harsh high frequencies when distortion pedals are on)

Monitor

Microphone for speech between songs.

Guitar:

Band brings their own Kemper Profiler and Guitar Cabinet

The amp is not miked. We use 2xmono XLR for direct output.

The two mono channels are panned Hard L and Hard R to create stereo image

We also require a data projector pointed on the band for visuals

At least 5 230V sockets at the stage.

Ideally, please, no front of stage lights at the bass guitar and guitar player, thank you.

In case of any questions contact Jakub Spiszak.

We would appreciate if one hour would be reserved for setup and soundcheck.

Guest list

Our Stories would appreciate up to 4 people to be allowed on the guestlist and granted backstage access.

Merchandise

Promoter (venue) will provide a place at the venue suitable for selling CDs, T-shirt, etc.

The band is entitled to the whole profit from their sold merchandise.

Catering Rider

We would really appreciate if some of the following refreshments would be provided by the promoter at the venue, thank you:

Water

2x non-alcoholic beer

4x normal beer

Fruit

Finger sandwiches or other savoury snack/light food are most welcomed.

Thank you for having us!
