

# BUČ KESIDI – CATERING RIDER

Hello,

Our crew consists of two musicians, our sound tech, our driver, and an additional tech.

The band members will require two bottles of refrigerated water each, to have on stage during the show.

We would also expect an amount of complimentary drinks for the band and crew for before and after the show – water, beer, and whatever else the venue would be able to provide. Among other drinks, gin and tonics would be highly appreciated, and a bottle of whiskey for the backstage would be amazing.

Also, food before or after the sound-check would be much appreciated. No one in the crew has any allergies or special demands regarding food or drinks.
