Third album 'KASPER' out now.

CHAPTER III

After having released two albums, Belgian based instrumental band Statue are back with their third installment '**Kasper**' (produced by Micha Volders).

The band, notably known for having **four guitar players** shocks and awes audiences with their heavy wall of sound. Backed by a tight rhythm section,

Statue delivers songs with a keen eye for detail without losing the focus to keep those feet dancing.

'**Kasper**' was **recorded live** at GAM-studio in Waimes, BE (may 2017).
