## Autographed CD of the Month: Walter Christopher is feeling "Mellisonant"

86

*mellisonant* (adjective) - pleasing to the ear;

We can't think of a better term to describe Walter Christopher. He is one smooth cat whose music is and has always been "pleasing to the ear." SoulTrackers have been loving him for years, both from his work as an opening act for artists ranging from Kem to Boyz II Men to his fine solo albums.

Walter is now back with his fifth solo album, aptly titled **The Mellisonant Album**, and it gives more of what Walter does best: Fluid songwriting skills and vocal performances that should appeal to soul and jazz fans everywhere. Working with producers Hubert Eaves IV and an A-List of supporting musicians, he's created a disc that we think SoulTrackers are going to love.

So we're proud to present **The Mellisonant Album** as our newest **SoulTracks CD of the Month** for February. Sit back and listen to it below and then **click through to get your own autographed copy of this smooth soul gem for just \$9.99 or the mp3 album for just \$8.99.**
