Melodic Electro-Fusion Metal from Budapest

As an increasingly recognized member of the Hungarian metal area, the band plays a unique fusion of electro/dubstep and metal.

They recorded the first studio album in 2019 which came with the title "Not My War", and was very well-received among both the Hungarian and the international audience.

The band has recorded 9 music videos so far, the last two of which "FCKN Liar" has caused quite a stir due to its thought-provoking, explicit lyrics, and "Scream My Name", which was recorded and edited by a very unusual, interesting way, so it has a quite unique imagery.

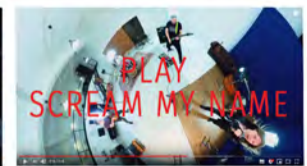

Their YouTube channel has well over 145.000 views and their live performances are highly brain-kicking, and sought after.

They have a message to be told, or a line to reach out to everyone.
