

BAILDSA

Being alternative is much more than a music genre label. Baildsa's alternate view on music making and songwriting creates an explosive mixture of post punk and indie rock tunes blended with roots elements from the Eastern Mediterranean Eastern Mediterranean Eastern Mediterranean and Dub, reggae segments. . . This musical fusion together fusion together with their intense and deeply political point of view results in what Baildsa represent Baildsa represent Baildsa represent as a band.

Formed and based in Thessaloniki, Greece Baildsa offer their signature high high high energy punk rock both in studio recorded albums and explosive live shows. From heavy distorted distorted distorted guitar riffs and steady drum and bass lines to darker, esoteric feedback soundscapes and from uptempo ska brass lines to melting trumpet tunes from the Balkan tradition, , , Baildsa always manage to stay original and unique in their own ever evolving and ever evolving and ever evolving and diverse universe. However, one thing stands still and is always present in the band's songwriting: A firm and loud opposition against any form of fascism, racism, sexism and suppression of human rights, an endless fight against all forms of war and division and a deep faith in humanity and open , free societies.

Baildsa released three studio albums so far:

Their debut album "United States of Balkans" introduced them to the audience around the globe with an uptempo ska punk and reggae mixture infused with Balkan and gypsy melodies . "USB" was highly acclaimed by the fans and critics and together with extensive touring in Greece and the Balkans created a solid fan base for the band.

Their second album entitled "Zvana" took the band to a higher level both in songwriting and soundwise: a much more mature side of the band came forward with a massive alternative punk rock sound...the analog produced album managed to capture and reproduce the raw energy of the band's live performance creating their own wall of sound.

On their third studio album "warzone" the band takes a huge step ahead , expanding their sonic universe with post punk and stoner elements creating a new soundscape, modern but unique with a fine balance between their roots and their never ending exploration. Warzone is an absolute representation of Baildsa today.

For the past ten years Baildsa have been touring around Europe and Balkans presenting their explosive live show to a vast variety of audiences, performing in both major venues, festivals and small clubs gaining new fans in every gig. Their latest tour for the "Warzone" album brings a fresh yet mature performance with the band reaching the highest level offering a unique experience.

So uncalm...and enter the warzone!
