

DEAD MAN ORCHESTRA**VIENNESE INDIE DEATH ROCK**

You heard of Viennese Death Indie Death Rock? No? Well, then check out the DEAD MAN ORCHESTRA!

Their music features danceable rock music, soaked in 90s grunge with a flavor of dirty old men blues on top of it. What you get is sometimes dark but always catchy. We don't speak about your regular indie/alternative/whatsoever – band. This is **DEATH POP**.

The songs of their 5-track-debut „The Final Twitch“ (released 09-2014) go from catchy Indie („Dragging You Down“) to industrial-like Drone-rock („O.C.“). References such as NIN, Twilight Singers and Foo Fighters are valid and desired. Occasional banjo and blues harp parts add an original factor to the band's rock-setup.

There's something evil going on. Take a walk into the abyss and stay tuned for more!
