**TITLE**

**Underdogism**

Filip Sundberg (from Swedish band Syket) aka TIGER FOREST CAT is debuting this year with an extraordinary album that have been in the works for almost 3 years. It's a labour of love, smitten by songwriters like Bryan Ferry or bands like Prefab Sprout, Tiger Forest Cat delivers on every note.

Tiger Forest Cat have already started to make a name for himself with the first song released from this longplayer, "Everybody's Running" raised eyebrows over at The Guardian and Nordic by nature and he has since then played Berlin Music Week and supported bands like Widowspeak and Simian Ghost.

The songs on this album will make you feel like you're cruising Hollywood in the 80s and the next second you're taken to Filip's home in northern Sweden. The total opposite. We are extremely proud to release an album with such a strong identity and we sincerely believe that the music of Tiger Forest Cat will find new and eager listeners around the world in 2014.
