- Full kit
 - Bass drum, tom, floor tom, stool
 - Stands for: hi-hat, crash x2, ride, splash
 - Cymbals, snare, bass pedal M
-

Other Technical Requirements

All guitars and bass need to go through the main PA.

Drums need to be fully amplified.

All guitar amplifiers need to be on a stable stand, elevated from the ground to the height of 1m (3,2ft).

Niko, Luke and Lewis need at least 3 electrical plugs each in the space of 3.5ft or less from the playing position.

All items followed by **M** will be provided by the band.

Other elements are expected to be provided by the venue or promoter, and to be in a suitable condition to perform a full set.

The equipment list needs to be communicated to the band at least 48h before the show.

Please allow 25min for sound check and 15min for change over.

MOKSHA does not have a sound engineer. Qualified, on stage help for setting up and mixing is expected.

Other Important Information

The band needs water bottles on stage.

A warm meal and a couple of beers/soft drinks for each band member is warmly welcomed.

One free parking place is required for a van.

All equipment needs a locked or constantly supervised room before and after the show for at least 2 hours.

The band needs a merchandise stand. (The band can sell their merchandise themselves.)

Please note that these are optimal circumstances. All conditions can be negotiated in advance, with at least 48h notice.

Please contact mokshamusiclive@gmail.com or +447449 95 35 94 if you have any questions.

Thank you for your cooperation.
