

The Howlin' City

BIO

THC is a french power duo from Paris, distilling a dynamic and groovy heavy-blues rock with tastes of garage and stoner rock.

In 2016, the band released its first EP Wood in association label 'Echo Record' (from the Echo Association).

THC has worked under french label Fauché Record (from the Fauchage Collectif association) since the end of 2017.

In 2019, THC undertook their first European tour. At the beginning of 2020, during the confinement, songs that remained in the shadows and eccentric ideas gave life to a home made E.P. "Tales from the trash can", a 4 tracks E.P. made with "what's to hand".

THC is made up of two regular guys who intermittently release hard-hitting Rock projects when they aren't overeating or drinking.

Pierre-Adrien "Pad" has been playing guitar since he was 17 years old. He sought inspiration from famous Blues, Rock and Jazz artists for his guitar style. Pad has taken classical vocal lessons, which he's put to work yelling into his mic.

Paul "Paulo", has been drumming hard, I mean really, really hard and since he was 6 years old (#Lumberjack4ever). Dave Grohl is his Jesus Christ. Instead of learning how to sing he prefers to study the music industry ... that could be useful, I mean ... who knows ?

The Howlin' City, aka THC is motivated to go on the top to give a powerful and a true Rock'N Roll sound to this planet.

And yes, we know ... It's a long way to the top if you want to rock N roll.
