

### FERNANDO LAGRECA 'INFAMOUS' LP

Label: Beautiful Accident

Release date: April 17, 2020

**Fernando Lagreca's** music transports the listener into a sophisticated dimension and vibrant atmospheres where he mangles different approaches and textures disrupting traditional forms of electronic music. On his third and finest full-length *Infamous* out this early spring via **Beautiful Accident** he combines his passion for analog synthesis with eerie operatic samples and hypnotic melodic lines.

Following on from his 2014's album *Control* (Irregular) which highlighted mellow ambiances, slo mo disco and downtempo / synthpop structures, *Infamous* branches into unfamiliar sonic territories such as **Urban Soul, Drum & Bass and Techno with a razor-sharp method of musical composition.** *Infamous* kicks off with the dazzling and delicate "Creation" setting the tone for what is still to come...

Subsequently *Infamous* takes off into an experimental vortex of emotive dynamics traveling through time and space bursting into a melting pot of different sonic textures orchestrated with personality and taste.

Often deviating from normality and challenging standard conventions *Infamous* mirrors Lagreca's recent musical discoveries taking us to an almost extra-terrestrial aural voyage. Not surprisingly, Lagreca's latest work still gathers some trademark sounds from earlier releases but with an additional collective spirit featuring collaborations with **Chantelle R, Kamal Imani, and B.Dopran.** "Dark Net" is a gloomy and exquisite spaceship that mimics a rave on the fluffy soil of the moon packed with old school house influenced stabs while "Dissociation" flows like water through a waterfall blending 80s synthesizer elements with uplifting lyrical prose.

With live performances on festivals such as Sónar, ADE, Bime and Pit Lane, 2020 looks promising for Fernando Lagreca, a long-time music aficionado who splits his time between music production and managing a cast of talented artists through his own agency **Miracle Management.** As well as teaching master classes (SAE Institute, EUMES) and running his own music label (Beautiful Accident). He's a jack-of-all-trades!
