

MANISH VYAS

Soulful uplifting, spirit-ascending music - a ride worth taking

Manish Vyas presents

SAHAJ ATMA : Music that illuminates the Soul

From India, heartfelt, deep-touching
music that serenades the heart
and lightens the spirit.

A wonderful way to
refresh the mind.

Through Mantra, Kirtan and Sufi
music, creating a space of joy,
meditation and silence.

Music that carries the authentic
flavor of India and yet merging the
boundaries.

Originally from India and now based in Switzerland, Manish is a composer, vocalist and multiinstrumentalist – he is a talented Tabla player, a disciple of Ustad Allarakha. Later he added his distinct voice to the music and also learned to play Santoor, an ancient stringed musical instrument which was traditionally used in the folk music of Kashmir. He also plays and teaches harmonium.

The feeling behind his music is that of joy, meditation and silence. The range that him and his band cover through vocals and Indian instruments (Tabla, Santoor, Harmonium, Keyboards, Tanpura, Swarmandal, Bansuri, Sitar) gives rise to different flavors : from devotional prayers, mantras, and Sufi songs of love and longing; raising up the rhythm to Kirtan music, followed by uplifting dance celebration music – to finally return to the meditative shanti (peaceful) music. In this way, covering the whole range of emotions through the musical expression: a reflection of a balanced life: going outwards and coming back inwards. Manish is one of the few authentic kirtan and mantra singers who has the true deep understanding of Indian music and keeps its authenticity most gracefully, with true respect to Indian music.
