REMARKS

I'm, first, a vinyl DJ (since 2001). So, you can easily imagine I prefer turntables! I play at least on 3 decks. However, I know every club does not necessarily have turntables that works properly (they should have!) so you will find different and acceptable setups. The only and absolutely required item is the **mixer**. Please, just inform me at least one week before my venue which setup is selected. Feel free to contact me to find the best solution!

IDEAL SETUP

- 1 **DJM900 NXS2** up to date w/ the latest firmware (2.06) or 1 **DJM V10 NO OTHER MIXER WILL BE ACCEPTED AND THE ARTIST...**
- 3 x **Technics MK5, SL-1200GR or MK7** (no other turntable accepted)
- 2 x **CDJ 2000 NXS2** up to date w/ the latest firmware (1.85) linked

See "**OTHER POSSIBLE SETUPS**" section.

Here the links to the firmwares:

- CDJ 2000 NXS2 : <https://www.pioneerdj.com/fr-fr/support/software/player/cdj-2000nxs2/>
- DJ 900 NXS2 : <https://www.pioneerdj.com/fr-fr/support/software/mixer/djm-900nxs2/>

HOSPITALITY

No need to book an hotel if I can stay with someone, I just need to sleep a little before my next step!
Dinner is welcome but not necessary (sometimes I love to visit the city alone, but I guess I'm a good companion too!)

Otherwise:

- Hotel must be at least a European standard FOUR (4) STAR HOTEL including breakfast, wireless internet (free of charge), early check-in and late check-out
- Hotel must be approved by myself

PROMOTION

Please, just let me inform of what you do :o)
