## BIOGRAPHIE

In 2019 the band UTE KABEL was born in Berlin. Stylistically, the trio moves between punk and pop, between madness and glamour. Their sound establishes the latest version of a new German wave and experiments with sheer insanity elements. Autotune meets 80's pop. The Shazam button is pressed by Dua Lipa and Nina Hagen in delight.

Drummer Mr. „Albrecht“ Silent and keyboarder Jacques Moirè already know each other from earlier projects. Together with Finja Messer they build an extremely versatile live sensation whose shows not infrequently end in great performance art. Mermaids swim between meter-high foam cakes, the ride into space is well prepared.

The band UTE KABEL releases their first EP "Ich hab dir den Hund anvertraut!" on **19.03.2021**. UTE KABEL invites you to an exclusive trip into space, listeners are catapulted into cosmic spheres by listening the first song „Ulibigata“. Finja Messer sings about discrepancies between love and friendship ("Sober Nights"). She dreams of the unspeakable desire to party and longs for youthful unreasonableness. ("Party Problems"). In a 50-second song, the band complains because someone was rashly "entrusted" with a dog.

The closing song "Outta Space (BonBon)" continues their journey towards infinity. Humans in general, they sum up, maybe shouldn't be on planet Earth anyway. One thing is certain: The EP sets a precision landing when it comes to versatility and imaginative, humorous narratives.
