BIOGRAPHY

SPIRAL is a polish alternative, post rockish band with a fresh approach to making this kind of music. Their compositions incorporate sounds which we are used to hearing in a wide array of other music genres like **trip hop, ambient, electronica** or **math metal**. The group has released two studio albums – **URBAN FABLE** (2009) and **CLOUD KINGDOMS** (2014).

Debut album was highly praised by critics and awarded with prestigious title of **Polish Album of the Year by Antyradio** (the most notable alternative polish radio station). Lead single from the album **IT'S GONE** was at the top of the Antyradio's chart for weeks. Second album **CLOUD KINGDOMS** has received even more praised reviews in whole world. Band plays **great shows** using their own **smoke & lightning setup**, bringing the dreamy, atmospheric song landscapes to life.
