

BILO

BILO is a Spanish band formed on the island of the Mediterranean, Mallorca, creating a project with the aim of creating something natural without pretensions or kinship making it authentic and fresh. With a formation composed by bassist (Sebastià Grimalt), drummer (Marc Más), guitarist and voice (Driss Stadig), the keyboard player (Victor Ariza) and finally synth and guitarist (Tomi Solbas).

Since our formation we have been lucky enough to parade through the most important festivals and theaters in Mallorca ([Tramuntana Rocks](#) and [Mallorca Live Festival](#)), in 2018 a leap to release our first single "Barely Know" from our E.P. "Mahatma Cartney" performing at the [BIME festival](#) and [The New Colossus \(N.Y.\)](#) being both mentioned in international media as "Rockaxis" (Chile), "WMP" or "Joyride" (Mexico) as in national "Ruta 66", "national radio of Spain" being finalists of the national contest "Demo Project".

We start from diverse influences that come from the Jazz passing through the psychedelia to the current Lo-Fi or New Wave, each one has its preferences, tastes, abilities and concerns ... Which produces a particular and own sound, relatively difficult to define, each song has its particularities and different changes, but recognizable by its elaborate synthesizers, rhythms full of life, catchy guitar phrases and deep bass lines. Which generates our own sound

We are currently presenting our new L.P. "Just A Game", that will premiere in november 2021, which is composed of 10 songs that bring a breath of fresh air under the creation of compositions full of new and pure sounds that flee from fiction, doing everything possible to bring our live to the ears of the listeners.

We are excited to invite you to listen to our songs and you can define for yourselves the concept of Bilo. Here we leave a link so you can see our latest work. Thank you for your time and we hope you enjoy it.

[Our new single "Catch the Fool"](#)
