

Michael was born in Germany but raised in the US. He began singing at a very young age, using music as an escape from whatever troubles he was going through at any point and time in his life. After 6 years in the Army and 3 tours in Iraq and Afghanistan, he realised the direction his life was going was different from the dreams he had in mind. In 2012 he decided to leave his life behind in the US, and moved back to Germany where his mother's side of the family still resides to this day.

Realising his dreams and wishes to become a musician, Michael took part in the second series of the casting show "The Voice of Germany" where he placed 3rd and toured the biggest venues Germany had to offer. His interpretation of the song "Angel" by "Sarah McLachlan" and his own original song "Mrs. Lawless" placed top 50 in the German Music Charts.

Since then Michael has released 3 Studio Albums and plays shows throughout Europe. With over 2M Spotify plays and over 1M YouTube streams, Michael's music reaches people worldwide. Between tours he works in his recording studio with other artists and producers. Michael takes part in many different projects including other bands, special events, weddings, festivals, and charities.
