

# RUMOUR CUBES STAGE PLOT

Mics 1 & 2 will run through our laptop set up and into the DI channel there.

Mic 3 will just be used to speak to the audience. It only needs to be on between songs.

If you have any questions please call  
Jay (07951138527) or Adam (07734412009)

For monitoring we can be flexible as to how many  
and where they go, the most important thing for us  
is that the strings can hear enough of themselves  
and each other. Thank you!
